

Table S2: Cost (in £ per patient) of managing the complications reported by patients during the UK-ROPE study

Complication	Cost (£ per patient)
Haematuria	1316.50*
Haematospermia	0
Incontinence	1,203.33
Urinary infection	10.04
Retrograde ejaculation	0

*The cost of managing haematuria included in sensitivity analysis 3 only (all other analyses assume the cost of managing haematuria to be nil)
